The perfect combination of both features provides you with accurate reversing information.

02

SAFETY SIDE IMPACT BAR + ROLL-OVER BAR SYSTEM

Cage type, all metal, closed car body with hardtop + four-door anti collision beam.

03

DISC BRAKING

Four-wheel disc brakes provides stable braking force and distribution to stop the

PLEASURE EVERYWHERE

Pleasant to drive, the stylish leather seats are made of soft material making your travel comfortable. Its 5-seater seats are also ideal for small families. Active and passive safety features are made available keeping passengers safety in mind.

With its comfortable interior and infotainment system with 6-speakers, the H1 is a practical compact SUV offering its passenger relaxation and an enjoyable driving experience be it city driving or on long-haul journeys.

06

TCS (TRACTION CONTROL SYSTEM)

Traction Control System is designed to prevent a car's tyres from slipping during driving on slippery or muddy roads.

05

HHC (HILL HOLD CONTROL)

Automatically activated. The HHC keeps pressure in the brake system for 2 second, which allows easy starting up the hill without unwanted roll backwards.

04

ESC (ELECTRIC STABILITY CONTROL)

Electronic Stability Control is an active safety feature designed to help drivers maintain control of their cars as a result from over steering. Individual braking is activated to help bring the car safely back on its track.
