

HAVAL

Luxury 7 Seat 4WD
HAVAL H9

The new HAVAL H9, a 7 Seater 4WD SUV is one of the most comfortable and capable off-road vehicles you'll ever drive.

SAFE PASSAGE FOR ALL

The new Haval H9 comes with a full suite of active and passive safety systems designed to provide a haven for you and your most precious cargo in all conditions.

It starts with a strong frame, incorporating a high-performance safety shell that works to actively channel the energy from a collision around the passenger safety cell, keeping it intact and the occupants safely cocooned inside. That shell is complemented by an array of active and passive safety systems, including six airbags to protect all passengers, including full-length side curtain airbags. In the unfortunate event of an accident, the intelligent safety systems react in milliseconds to shelter all passengers with maximum protection.

The latest safety technology is now available with three potentially life-saving systems: Blind Spot Monitoring (BSM), Lane Departure Warning (LDW) and Rear Cross Traffic Alert (RCTA).

BLIND SPOT MONITORING (BSM)

Statistics show that a quarter of all side impact collisions could be eliminated by having BSM fitted. Using strategically mounted radar sensors, BSM monitors vehicles moving up on either side and lets you know via an amber indicator mounted on the inside of each side vision mirror. If you indicate to change lanes with a vehicle still in the blind spot, BSM sounds an audible warning to help you stay safe.

ADAPTIVE FRONT LIGHTING (AFS)

The H9 ULTRA also features Adaptive Front Lighting System (AFS) that allows the driver to 'look around' corners and automatically adjusting levels when traversing up and down hills. Ambient light sensors constantly monitor the brightness of the surrounding environment and switch the headlamps on and off automatically.

LANE DEPARTURE WARNING (LDW)

Working in tandem with BSM, LDW constantly monitors your environment and, if it detects you moving outside your lane without using your indicator, will sound an audible buzzer and flash a warning on screen to help you stay safe.

HILL DESCENT CONTROL (HDC)

HDC is part of the latest Bosch V9.0 stability control system that is standard on all H9s. When heading down a steep hill, engaging HDC means the H9 will take over braking, applying pressure to each wheel individually to ease you safely to level ground. All the driver needs to do is keep the car heading in the right direction. It's peace of mind motoring to keep you and your family safe.

REAR CROSS TRAFFIC ALERT (RCTA)

RCTA is an extension of the rear camera system and designed to warn the driver of any cars that are entering your path when reversing. This is particularly helpful in a busy parking lot, where RCTA can detect moving cars far quicker than human senses.

TYRE PRESSURE MONITORING (TPMS)

The H9 is also fitted with active Tyre Pressure Monitoring System (TPMS). Safety experts believe that incorrect tyre pressures contribute to around 80% of accidents involving punctures, which is why tyre pressure monitoring systems are now mandatory in the US.

FOR FAMILY ADVENTURES

The new H9 was designed and built for busy families with thoughtful features to make life a little less stressful.

Practicality starts as you approach the car, with the ease of key-less entry. With the keys in your pocket, the driver only need wrap their hand around the color-coded door handle to unlock the vehicle and allow entry for all passengers. Accessing the H9 is made easy with standard side-steps and plenty of grab handles.

Start the new H9 and the large, TFT instrument panel comes to life displaying all the vital information the driver needs to start safely. It immediately provides warnings of any open doors, if the vehicle is low on fuel or the tyre pressures are outside the recommended operating range.

The H9 features an electro-chromatic (self-dimming) rear view mirror to prevent night time glare and incorporates built in seat belt warning lights.

The large, easy-to-read centre stack houses a high definition touch screen that provides access and control for a host of functions including climate control and audio.

If you are heading for the snow, the heated seats, steering wheel and wipers on the H9 ULTRA are ready for the adventure.

WIDE OPEN SPACES

Look around the new H9 and you quickly realise there's ample room for all seven occupants. Fold the second and third-row seats flat and there's a cavernous 1457 litres of space on offer. These can be manipulated in numerous ways via the 60:40 split fold second row or 50:50 split fold third row.

Unlike many '7-seat' SUVs on the market today, the H9 comes with plenty of room for the family members in the third row, with a generous 700mm of legroom built in.

EXPLORE IN STYLE

No matter what you or your family is doing or where you're going, in the new Haval H9 you're doing it with style. With a distinctly different look, there's no mistaking the H9 for any other vehicle on the road.

Stylish lines represent the culmination of years of hard work by a team of dedicated designers and engineers to produce the finest possible SUV. Function blends seamlessly with form from the distinctive horizontal chrome grille bars to the smooth operation of the tailgate.

Xenon headlamps and daytime running lights are standard on all H9 models to brilliantly illuminate the road ahead, while the ULTRA version features adaptive front lighting to help you see around corners for increased safety and visibility. Ambient light sensors constantly monitor the brightness of the surrounding environment and switch the headlamps on and off automatically.

The low front and high rear waistline accentuate the sporting appearance of the H9, ensuring it looks just as good standing still as it does carving a path through the urban jungle or exploring off the beaten track. It not only looks good, it's aerodynamically designed to channel the airflow around the car for maximum efficiency and lower road noise.

Other practical standard features include side steps and stainless steel scuff plates for ease of entry and exit and aerodynamically designed roof rails to assist transportation of large items quickly and easily.

XENON HEADLIGHTS

Xenon headlamps are standard on all H9 models to brilliantly illuminate the road ahead, while the PREMIUM version features Adaptive Front Lighting System (AFS) that allows the driver to 'look around' corners. Ambient light sensors constantly monitor the brightness of the surrounding environment and switch the headlamps on and off automatically.

HAVAL DESIGN

Function blends seamlessly with form from the distinctive horizontal chrome grille bars to the smooth operation of the tailgate.

Other practical standard features include puddle lamps built into the large side mirrors and side steps for ease of entry and exit.

18" ALLOY WHEELS

Both H9 models now come with stylish 18-inch alloys wrapped in 265/60 R18 tyres. Other practical standard features include side steps – for ease of entry and exit – and aerodynamically designed roof rails to assist transportation of large items quickly and easily.

GET READY FOR YOUR NEW ADVENTURE

The lifestyle needs of today's world have never been more demanding on the family SUV.

From the morning school run, to loading up the gear for your weekend DIY project to venturing off the beaten track for that holiday adventure, we expect more and more from our daily driver.

That was the starting point for the engineers at Haval when they began work on the new H9. It's designed to handle all your family chores with ease with its mix of luxury and comfort. It's also tough enough to create a new set of happy memories on whatever holiday trip your family throws at it.

Critically, it has been designed to ensure your most precious cargo is always protected with the latest safety features and security technology.

VEHICLE SPECIFICATIONS

Vehicle	H9 PREMIUM	Vehicle	H9 PREMIUM
Length x Width x Height (mm)	4856x1926x1900	Multi-Function Trip Computer	•
Wheelbase (mm)	2800	Cruise Control System	•
Front / Rear Wheel Track (mm)	1610 / 1610	Auto Stop / Start	•
Engine Type	2.0L Turbocharged 4-cylinder 16-valve, double VVT, Direct Injection	Seats	
Horse Power	248 hp	7 Seats	•
Maximum Power (kW/rpm)	185 / 5500	Material	Leather
Maximum Torque (Nm/rpm)	355 / 1800-4500	ISOFIX Child Seat Fixing Device	•
Emission Standard	EU V / EU V+	Front Power Heated / Ventilated & Massaging Seats	•
Fuel Consumption (combined cycle) / Tank Capacity	10.9L / 100 km / 90L	8-Way Electrically Adjustable Driver Seat with Lumbar Support & Memory	•
Transmission	ZF-8AT with Paddle Shifters	4-Way Electrically Adjustable Front Passenger Seat with Duplicate Controls	•
Towing Capacity	2500kg Braked	Front Seats with Leg Rest Function	•
Drive Mode	4WD - Selectable All-Terrain Control	2nd Row Power Heated Seats	•
Exterior/Interior		2nd Row Arm Rest with Cup Holder	•
Sunroof	Panoramic	Manually Adjustable 2nd Row Seat - Slide & Tilt	•
Aluminum Alloy Wheels	•	60:40 Split Fold 2nd Row Seat	•
Roof Rails (Matte Alloy)	•	50:50 Split Fold 3rd row Seat	•
Side Steps	•	Powered 3rd Row Seat Access	•
Stainless Steel Rear Bumper Protector	•	Safety	
Rain-Sensing Automatic Front Wipers	Heated	Dual Front & Side Airbags	•
Tyres	265 / 60 R18	Full-Length Side Curtain Airbags (3 rows)	•
Full Size Spare Wheel	•	Lane Departure Warning	•
Grey / Black Interior	•	Rear Cross Traffic Alert	•
Leather Steering Wheel	•	Blind Spot Monitoring	•
4-Way Manually Adjustable Steering Wheel	•	Adjustable Front Seatbelts with Pretensioner	•
Aluminium Pedals	•	Children Safety Lock	•
Multi-Function Steering Wheel	•	Reverse Radars (4 front+4 rear)	•
Carpet Mats	•	Reverse Camera with Dynamic Reversing Auxiliary Line	•
220V Rear Power Outlet	•	Driver Condition Monitoring	•
Luggage Blind	•	Remote Control Window Close Function	•
Drivers Foot Rest	•	Speed-sensing Central Door Lock	•
Stainless Steel Scuff Plates	Illuminated	Seatbelt Warning System	•
Steering Wheel with Paddle Shifters	•	Automatic Collision Unlocking Function	•
Keyless Entry System	•	Engine Immobiliser & Alarm System	•
Keyless Start System	•	Glass/Rear Mirror	
Remote Control Central Door Locking	•	Tinted Privacy Glass	•
Intelligent Door Locking Error-Proofing Function	•	Folding External Rear View Mirror with Defrost and LED Turn Signal	•
TPMS (Tyre Pressure Monitoring System)	•	Electro-Chromatic Rear View Mirror	•
ABS + EBD	•	Reverse Parking Mirror Assist	•
TCS (Traction Control System)	•	Lighting	
BA (Brake Assist)	•	Automatic Xenon Headlamps	35W
ESP (Electronic Stability Program)	•	Automatic Headlight Cleaning System	•
Electronic Parking Brake	•	DRL (Daytime Running Lights)	•
RMI (Roll Movement Intervention)	•	Electric Height-Adjustable Headlamps	x
Auto Hold	•	AFS (Adaptive Frontlighting System)	•
Speed Warning System	•	Front/Rear Foglamps	•
Active Front Head Restraints	•	Follow-Me-Home Function	•
Off-Road		HAVAL Puddle Lamp	•
HDC (Hill Descent Control)	•	Emergency Brake Hazard Warning	•
HAC (Hill-Start Assist Control)	•	Mood Lighting-Selectable	•
All Terrain Control System (Auto, Sport, Sand, Snow, Mud, 4L)	•	Illuminated Entry Lamps	•
Multi-Function Off-Road Gauges	•	Air Conditioning	
Electronic Differential Lock	•	Three-Zone Automatic Air Conditioning (Driver+Passenger+Rear)	•
Fording Depth 700mm	•	Air Purification System	•
Multi-Media Equipment		Outside Temperature Indicator	•
CD with AUX IN / USB (Audio+Video)	•	3rd Row Air Outlet & Independent Controls	•
8" LCD Touch Screen	•	Automatic Demist	•
4 Tweeters + 4 Bass Speakers + 1 Centre Channel Speaker	INFINITY + Subwoofer	Accessories	
Independent Amplifier	•	Tow Bar and Tow Ball	o
Bluetooth Hands-Free Link	•	Roof Rail Crossbars	o
SD Card Slot	•	Weathershield Set	o
